

Spotlight Award

In recognition of your contribution to AMD, we are pleased to present you with a Spotlight Award.

In recognition of: Ajaya Dahal

Award Message:

Hi AJ, I wanted to formally say thank you for all the extra work and overtime you put into supporting the Versal 2.5GE IP issue for Lockheed. You definitely went above and beyond the normal support role for this customer even though they weren't appreciative of our work and engineering wasn't able to provide much assistance. You were always responsive, reliable and knowledgeable on the issue and this would have taken much longer to resolve without your help. Thanks! Chris
